

DAVID PHIAST

APPLICATION DEVELOPER

PERSONAL PROFILE

I am an application developer and associate software engineer for Machine learning based applications. I wasn't aware of Machine learning but after becoming familiar with it over the course of a year I am very much intrigued and fueled by its process and how applications can be developed around it. I want to join a role where I can experiment and learn with new types of data and increase my ability to build more complex models in the future.

SKILLS

Deep Learning, Machine Learning, Artificial Intelligence, Linear Regression, Software Engineering, Python, Java, SAP, C, C++, Jenkins, Kubernetes, Docker, Backend.

PROJECTS

AI based Cricket Match Intensity counter.
Property Valuation using Machine Learning.

WORK BACKGROUND

Accenture

Application Development Associate. Jan 2019 to Jan 2020

Created all master data of SAP EAM. Performed data loading from legacy system to SAP system using LSMW. Created Configuration documents for clients and also User stories. Performed the end to end process of SAP EAM.

EDUCATION

B.Tech(Civil) from Jawaharlal Nehru University in 2019.

OTHER ACTIVITIES

AI on the cloud using Google Cloud Platform.
