

Mia Park

PROJECT ENGINEER

Executive Profile

Looking to utilize hands-on experience of machine learning, deep learning and Artificial Intelligence for data discovery, exploration, prediction and analysis tasks.

Skills

Data Analysis, Data Analytics, Data Mining, Deep Learning, Machine Learning, Artificial Intelligence, Linear Regression, Data Exploration, Sequential Analysis.

Other Activities

Azure Certification
Deep Learning Specialization

Projects

Predicting hotspots for adversarial patch attack
Object Detection using transfer learning

Work Experience

WTPL

Associate Project Engineer, Jun 2020 - till date

Worked as a Developer using frameworks in the domain of Machine Learning. Worked closely with the data collection team to find anomalies in the data and find better filtration techniques when extracting data from large warehouses.

Education

B.Tech(Computers) from Government College Of Engineering And Ceramic Technology in 2020
