

IRIS GAIDON

DATA ANALYST

PERSONAL PROFILE

A Data Science enthusiast with a demonstrated history of working in Banking industry. Currently working on real life Data Science projects with interest in Predictive Analytics, Machine Learning and Deep Learning.

SKILLS

Machine Learning, Data Mining, Artificial Intelligence, Natural Language Processing, Predictive Modeling, Financial Analysis, Python, SQL, Pandas, Time Series Analysis.

PROJECTS

AI based Cricket Match Intensity counter.
Property Valuation using Machine Learning.

WORK BACKGROUND

KT banks and holdings
Data Analyst, Jun 2018 - till date

As an analyst, my fundamental role was to plot and predict bank investment and security holdings. Brokerage cost and EMI calculations for customers based on interest rates for future terms and then use the entire data to plot an income venture for the entire month.

EDUCATION

B.Com (Commerce) from NK College of Commerce, Mumbai in 2017
MSc (Data Science) from AIS School of Data Science Mumbai in 2019

OTHER ACTIVITIES

AI on the cloud using Google Cloud Platform.
