# ADRIAN LOPEZ

SOFTWARE DEVELOPER & ANALYST ML

## EXECUTIVE SUMMARY

I am a software developer and analyst professional working for a year with client side technology and Machine Learning product delivery. I have handled small but scalable Machine Learning projects and want to expand my experience and expertise in the domain.

## PERSONAL SKILLS

Tensorflow, AWS, Keras, Deep Learning, Pytorch, Flask, Machine Learning, PySpark, Kafka, XML, API, JavaScript, AngularJS, SAP, RestAPI, PHP.

## PROJECTS

Error Testing of Convolution Neural Networks during Information transfer.

## EXTRA-CURRICULARS

Applied Machine Learning Course

## WORK EXPERIENCE

AT&C Solutions
Software Developer ML, Mar 2019 - Ongoing

Contributed to pixel recognition using MaskRCNN from clientele pictures to determine forgery. Developed image recognition for parts of a vehicle on an assembly line.

## ACADEMIC PROFILE

B.Tech(IT) PES University, Bangalore, 2019
