Daniel Lopez

DATA ANALYST

Executive Profile

As a Data Analyst I always look into more innovative ways of finding figures and facts from data. I have also worked with some production based Machine learning application problems and I would like to involve myself more with such ventures.

Skills

Machine Learning, Artificial Intelligence, Python, Predictive Analytics, Statistical Modeling, Data Visualization, Data Analysis, Data Mining, Data Validation, Power Bi, Text Analytics, Data Modeling, Data Analyst

Other Activities

Data Wrangling using Python
Advanced Dashboard Using Tableau

Projects

Automated Text Analyzer from Large Collection of customer chat interactions.

Work Experience

Volvo India Pvt. Ltd.
Data Analyst May 2019 to Till Date

Working as a Data Analyst, I extracted the data and performed different data processing techniques, and deploy machine learning algorithms according to requirements. Also, I automated different pipelines to make dataflow easier.

Education

B.Tech from Gujarat University in 2017
M.Tech from Vellore Institute of Technology in 2019
